

Measuring your wrist size

1. Print this page

Please print this page in A4 format without scaling the settings.

You can check the format of your printed page by placing a bank card in the box below.

2. Measuring your wrist size

Please cut out the ruler on the right following the dotted lines.

Keep your hand slightly open and relaxed.

Wrap the tape measure round your wrist.

Take the measurement where you usually wear your watch.

*If you place the tape measure too loosely or too tightly around your wrist, the measurement will not correspond to your required size.
